

Kathleen B. Kay

Senior Vice President of Business Technology Services

Kathy Kay began her career with General Motors Corp., in 1984 at the General Motors Research Laboratories as a Computer Programmer. She held various positions at the Research Labs while collaborating with many scientists in various fields ranging from Artificial Intelligence to Anthropology. Kathy moved to Chevrolet Motor Division in 1990 where she was an incentive forecaster. Kathy spent six years at Chevrolet in both business and IT roles. Kathy holds a Bachelors degree in Computer Science from Wayne State University and a Masters of Engineering in Management of Technology from Rensselaer Polytechnic Institute.

In 1996, Kathy moved to the Information Systems and Services (ISS) Department where she has held various positions. She started as the Portfolio Manager of the Distribution Systems, became the Information Officer for Customer Relationship Management. From there, she had responsibility for all Dealer Systems as the Director of Field and Dealer Systems. Kathy became the Director of the VSSM SDF in 2003 where she had responsibility for all application development for the Vehicle Sales, Service and Marketing organization.

Kathy moved to Onstar in 2004 as the Director of Application Development and Sustain. In her role, she was responsible for ensuring all new services and features were deployed as planned as well as application support.

Kathy joined Comerica Bank in December, 2007 as the Senior Vice President of Business Technology Services. Responsibilities include application development, portfolio management and application support for all applications and products.

Outside of Comerica, Kathy enjoys spending time with her two children, Trevor (19) and Mackenzie (16). Her hobbies include gardening, reading and running/exercising. Kathy is also involved in the Michigan Council of Women in Technology (MCWT) organization as a mentor for women in technology careers.
